

# Acushnet Rifle & Pistol Club

PO Box 30070

Acushnet MA 02743

**Next Meeting March 8, 2012 7:30pm**

## Happy New Year.

It has been quite some time since our last newsletter, however, we are going to be doing regular newsletters again. It is very important to note that this will be the *LAST* mailed newsletter to the members. All the future newsletters will be posted to be viewed or downloaded from our website.

The website address is:

[www.acushnetrifleandpistol.com](http://www.acushnetrifleandpistol.com)

At the last meeting on January 12th we had elections for new officers and board of director members. The following are the offices now held after the elections:

President: Bob Martin

Vice President: Dennis Leclair

Secretary: Arthur Plante

Treasurer: Charlie Stockwell

Board of Directors:

Paul Coderre

Scott Furtado

Chet Smigel

We would like to thank our previous officers for their dedication, service and experience. We hope you will continue to participate and offer your services and knowledge in the future.

Our appreciation to:

Donald Beaulieu

George Gracia

Bud Harding

George Pimental

Milt Pinchbeck

Appreciation for service also to the following members:

Tony Medeiros and Chet Smigel for welding and repairing our steel plate on the range.

Paul Coderre and Charlie Stockwell for painting the newly repaired plates, lane markings and steel columns.

Dennis Leclair for the constant maintenance and painting of the metal target hangers and poles as needed. He also fabricated the metal target hangers to replace the 1st test metal hangers on the range.

Scott Furtado for taking over the responsibility of supplying the drinks in the fridge in the club.

And of course the officers of the club who have made sure we have supplies and the club is in good order.

\*A very important note regarding the steel plates on the range\*

We have members shooting calibers above 38 special in lanes 5-8. We will be monitoring this and dealing with any offending members. The plate on these lanes is thinner than the other lanes so we do not allow larger calibers in 5-8.

The club roof will need to be fixed this spring to fix the leaks so we can fix the rest of the range inside. We will be looking at different options for this and will update the members as we know more.

Thanks

Arthur Plante

Club Secretary
